_____, Polyurethane Dispersions in the Finishing of Leather. (A) 380

SUBJECT INDEX

Abscess in Indian goat- and sheepskins 330
Absorbents
  from waste leather, synthetic and textile fibers 539
  from water, in hide preservation 192
  wood flour as, in chrome tanning 567
Acacia arabica, tanning extracts from, physical properties of 230
Acacia mearnsii, tanning extracts from, physical properties of 230
Acacia nilotica
  African and Indian barks, tannins in 500
  pods, tanning materials from 118, 167

pods, tanning materials from, for retanning chrome side leather 168
tannin distribution in 441
Acid receptors in sulfonyl chloride tanning 288
Acrylic polymers
in beamhouse treatment and tanning 567
composites with leather, morphological and mechanical properties of .. 508
Corialgrund, as coating materials 385
finishing with, review on 501
with sulfated castor oil 327, 329
Acrylonitrile
graft copolymers with hydrolyzed starch, as water absorbents for hide preservation 192
graft polymerization of, on casein, for finishes 440
Adhesion of leather to rubber, fat effect on 286
Adsorption of water, by ultraviolet-irradiated collagen fibers 437
Aging, accelerated, of leather 439
Air pollution
by N-nitrosodimethylamine from unhairing 476
by volatile organic compounds 35
ALCA
Alsop Award to Peter R. Buechler 428
Auditing Committee Report 471
Audit Report 272
Budget for 1982 281
Business Meeting Minutes 492
Call for Papers for 1983 Annual Meeting 537, 557
Candidates for the 1982 Election 107
Circulation Breakdown 373
Committee Reports: *See* specific Committees
Council Meeting Minutes 58, 278, 369, 498
Directory Changes 61, 163, 373, 472, 558
Fred O'Flaherty Award to Raymond A. Hauck 431
Highlights of Seventy-Eighth Annual Meeting 426
John Arthur Wilson Memorial Lecture Announcement 226
President's 1982 Convention Opening Remarks 427
Prize Paper for 18th IULTCS Congress 284, 323
Program for 1982 Annual Meeting 260
Status of the Association 372
Alhagain, specificity and essential groups in 173
Aliphatic hydroxyl group in soft leather manufacture 231
Alkali carbonates in sulfonyl chloride tanning 288
Alkali metal aluminosilicates in hide washing 67

Almond oil in leather-treating compositions 562
Alum
in retanning of bag-tanned leather 388
in wastewater clarification 24
Aluminosilicates, tanning with water-insoluble 63
Aluminum chloride, retanning with, of E. I. goatskins 440
Aluminum salts
tanning with glutaraldehyde and 382
tanning with, of E. I. goatskins 230
Aluminum sulfate
tanning with chrome, zirconium and, of wet salted sheepskins 440
tanning with myrobalans and 378
tanning with, of fox skins 117
tanning with wattle and 437
Aluminum tanning materials, determination of, by complex formation ... 503
Amino acids of collagen, racemization of, in alkaline lime liquors 382
Aminoplasts
as synthetic tanning materials 562
synthetic tanning materials from naphthalene-sulfonic acid and, for retanning 380
Ammonium hydroxide in hide liming 114
Amylase in bating with simultaneous scudding 64
ANPIC 82, international shoe industry suppliers show 109
Antifriction materials, polymers as, for leather wet processing 381
Antiseptics, chromatography of, in leather 540
Area of leather, machines for measuring 540
Arginase, immobilization of, on feather keratin membrane 116
Arthritis
adjuvant, mechanical properties of hides and tendons in relation to ... 500
adjuvant, metabolism of collagen and glycoproteins in, catechin effect on 437
ARTYMYSHYN, BOHDAN, Biography 366
Aspergillus
oxidation by, of catechol 444
tannase from 111
Aspergillus flavus
growth and metabolism of, sodium chloride effect on 326
tannase from 177
Aspergillus fumigatus, extracellular acid proteinase production by 327
Aspergillus niger, growth and metabolism of, sodium chloride effect on ... 326
Aspergillus oryzae, tannase from 177
Aspergillus terreus, growth and metabolism of, sodium chloride effect on .. 326

ASTM
Award of Merit to Clinton E. Retzsch 433
new officers for 108
Azo dyes, biodegradability of, by *Pseudomonas pseudomallei* 328

Babul, African and Indian barks, tannins in 500
Bacillus, anaerobic, collagen hydrolysis by 110
Bacteria
anaerobic, collagen hydrolysis by 110
lipase from, in hide degreasing 173
proteinases of, unhairing by 172
in soils, multiplication stimulation of, by tannery wastewater 377
in tannery wastewater 175
Bagaruwa
pods, tanning materials from 118, 167
pods, tanning materials from, for retanning chrome side leather 168
BARNET, CARL J., Obituary 57
Bating
with amylases and proteinases 64
enzyme effect on hides in 383
enzymes, collagen changes by 541
with fungal acid bate 501
of goatskins, with immobilized pancreatic enzymes 445
of goatskins, with pancreatin 178
Beamhouse
acrylic polymers in 567
Därmstadter process for, drumming vs. hanging hides in 540
enzymes in 117
lime- and sulfide-free process for, for sheepskins 229
processing model for 120
TNO process for, wastewater from 381
wastes from, disposal of 174
wastewater from, recycling of 206
wastewater from, removal of fats and proteins from 504
wastewater from, sulfides in, manganese-catalyzed oxidation of 457
Beeswax in leather-treating compositions 562
Benzidine, determination of free, in dyes 328
BERK, WILLIAM L., Biography 55
Bile from slaughterhouse, cholic and desoxycholic acids from 288
Biological materials, staining of, review on 387
Blaut Memorial Fellowship, availability of 164
Bleaching of pickled lambskins 68

Blood in food, feed, fertilizer, industry, medicine and laboratory, book on . 559
Blood meal from slaughterhouses 174
Bobble defect in sheepskins 378
Bone fat in leather-treating compositions 562
Book review
Animal Blood in Food, Feed, Fertilizer, Industry, Medicine and Laboratory 559
Gloving, Clothing and Special Leather 474
The Manufacture of Upper Leather 165
Technological Controls in Leather Manufacture 559
Boots
army and police, zug grain leather for 111
softy upper leather for, from E. I. cow hides 445
Brains
cattle, cholesterol from, from slaughterhouses 169
cattle, protein-rich meal from, from slaughterhouses 169
Buckets, leather from buffalo or cow hides 446
BUECHLER, PETER R.
Alsop Award to 428
Biography 103
Buffalo
calfskins, psoroptic mange in 167
hides, aniline and semi-aniline leather from 170
BUTLIN, J. GRAHAM, 1982 John Arthur Wilson Memorial Lecture by . 391
Butyl acrylate
graft polymerization of, on casein, for finishes 440
polymerization of, in leather 332
Butyl methacrylate, graft polymerization of, on casein, for finishes 440
Butyl urea, tropocollagen aggregation in relation to 445

Cadmium chloride in sulfonyl chloride tanning 288
Carnauba candelilla in leather-treating compositions 562
CARROLL, ROBERT J., Biography 533
Caesalpinia coriaria, tannin distribution in 441
Casein, acrylic monomer graft polymerization on, for finishes 440
Cassia auriculata, tannin distribution in 441
Castor oil, sulfated, polymers with acrylic monomers 327, 329
Catalysts, manganese, for oxidation of sulfides in beamhouse wastewater .. 457
Catechin, metabolism of collagen and glycoproteins in adjuvant arthritis in relation to 437
Catechol, oxidation of, by molds 444
Catecholoxidases from *Solanum torvum* fruits and coffee leaves 168

Cellulose acetate lacquers, as coating materials 327, 379
Cellulose ester lacquers, as coating materials 327
Chamois leather, chrome retanning of, for garments 446
CHANG, IMOGENE L., Biography 55
Cholesterol from cattle brains from slaughterhouses 169
Cholic acid from bile from slaughterhouse 288
Chromatography
  of fatliquors 504
  thin-layer, of antiseptics in leather 540
Chrome
  complexes, reactivity with collagen 115
  determination of, photometric, in tanning materials 384
  exhaustion in spent liquor, process variables affecting 546
  fixation of, synthetic tanning materials in 504
  oxidation of, in tannery wastewater 286
  recovery of, from waste chrome leather 311
  recovery of, from wastewater, by precipitation with sodium carbonate 383, 542
  in soils, availability of, for plants 385
  spray-dried powdered 566
  wastes containing, uses for 291
Chrome tanning
  exhaustion of spent liquors in, process variables affecting 546
  formaldehyde combination, of buffalo calf nappa leather 378
  of fox skins 117
  of goatskins, for suede leather 501
  in presence of zirconium salts, of E. I. goatskins 388
  re-, of chamois garment leather 446
  shrinkage temperature in relation to 383
  sodium silicate combination, for buffalo shoe suede 502
  wood flour as absorbent in 567
α-Chymotrypsin, collagen changes by 541
Coating materials
  acrylic polymers (Corialgrund) as 385
  cellulose acetate lacquers as 379
  crosslinking of, with electron beam and ultraviolet light 93
  polymers as 384
  polyurethanes as 563
  polyurethanes as, review on 379
Cod oil, autoxidation of 385
Coffee, catecholoxidases from leaves of 168
COLE, ANTHONY A. (TONY), Obituary 57

Collagen
amino acids of, racemization of, in alkaline lime liquors 382
bating enzyme effect on 541
fibers, preparation of 565
fibers, ultraviolet-irradiated, moisture adsorption by 437
hydrolysis of, by anaerobic bacteria 110
from mammalian intestines 116
metabolism of, in adjuvant arthritis, catechin effect on 437
molecular structure of, shrinkage temperature in relation to 383
nonleather uses of, symposium on 290
reactions of, with sulfonyl chlorides in tanning 330
reactions of, with sulfonyl chlorides, solvent effect on 229
in suckers and tentacles of *Sepia officinalis* 443
Color fastness testing, materials for, from Society of Dyers and Colourists . 226
Colorimetry in leather finishing 503
Color
of dyes, molecular structure effect on, review on 387
matching of fashion 436
COOPER, ROBIN N., Biography 469
Corialgrund, acrylic polymers, as coating materials 385
Crosslinking
of coatings with electron beam and ultraviolet light 93
of elastoidin, with tetranitromethane 438
Crosslinking agents in full chrome grain garment leather manufacture 112
Cuprous chloride in sulfonyl chloride tanning 288

Degreasing
of hides, with bacterial lipase 173
of sheepskins, bacterial lipase in 228
of sheepskins, enzymes in 544
Deliming with epsom salts, polemic on 358
Denaturation in hide drying, temperature effect on 541
Denitrification of tannery effluent 149
Dermatitis in sheepskins, leather quality in relation to 441
Desoxycholic acid from bile from slaughterhouse 288
Dicarbamoylsulfonates as tanning materials 70
Dimethylamine in unhairing 166
Dimethyl urea, tropocollagen aggregation in relation to 445
DOERR, ROBERT, Biography 490
Dog skins
suede garment leather from 167
upper leather from 114

Drying
apparatus for 66
in hide curing by modified salting process 175
of hides, heat pump in 175
of hides, irreversibility of 541
of leather, with heat from solar energy 436
temperature of, sulfonyl chloride tanning in relation to 229
Dyeing
of aniline leather 114
of aniline leather, buildup and exhaustion in 234
with fashion colors 113, 173
of grain leather, surfactants in 63
of Modeurop fashion shades 329
with pyrazolone dyes 444
of rabbit skins 110, 115
retanning, fatliquoring and, by compact process 382
of sheep- and lambskin furs 111
of sulfonyl chloride-tanned leather 439
Dyes
benzidine-free black, for leather and paper 226
biodegradability of, by *Pseudomonas pseudomallei* 328
economics of manufacture of, in 1980's 328
free benzidine determination in 328
molecular structure of, color in relation to, review on 387
molecular structure of, spectra in relation to 386
solvent-soluble, finishes containing 174
strength of, determination of 386

Effluents. *See* Wastewater
Elastoidin, crosslinking of, by tetranitromethane 438
Electron beam, crosslinking by, of coatings 93
Elephant hides, leather from 117
Emericella nidulans, growth and metabolism of, sodium chloride effect on . 326
Enzymes
bating, collagen changes by 541
bating, effect on hides 383
in bating with simultaneous scudding 64
in beamhouse process 117
in degreasing of sheepskins 544
immobilization of, on feather keratin membrane 116
pancreatic, immobilized, bating with, of goatskins 445
in sheepskin unhairing 229

unhairing by, hair recovery in 541
Epidermis, residual, on hides, scanning electron microscopy of 286
Epsom salts, deliming with, polemic on 358
EVERETT, ALFRED L., Biography 533

Fatliquoring
dyeing, retanning and, by compact process 382
with phospholipids 562
polymers in 384
simultaneously with mineral tanning 501
Fatliquors
adhesion of leather to rubber in relation to 286
chromatography of 504
emulsifiable 543
lecithin as 386
Fats
in leather, review on 386
recovery of, from unhairing wastewater 7
removal of, from beamhouse effluent 504
Fatty acids alkylolamide ether sulfates or phosphates in oiling 566
FEAIRHELLER, STEPHEN H., Biography 366
Feed, intestines as 441
Fibers
leather, properties of, tanning effect on 288
leather substitutes from polymers and 65
FICKER, CHARLES F., Biography 161
FIDDLER, WALTER, Biography 490
Finishes
acrylic-casein graft copolymers as 440
microscopy and microdensitometry of 232
nitrocellulose lacquers for 539
plating machine effect on 542
containing solvent-soluble dyes 174
Finishing
with acrylic polymers, review on 501
of aniline leather 178
with chlorinated rubber 436
colorimetry in 503
pearlized pigments for 543
polyurethanes in 380
on printing machines 543
of vegetable-tanned sheepskins, with Mecryl resin and PVC-PVA

systems 380
Fire-mark defect in goat- and sheepskins 176
Formaldehyde
acidified, in pickling 166
chrome combination tanning, of buffalo calf nappa leather 378
Fox skins, tanning of, with aluminum sulfate and chrome 177
Fur
drying of, irreversibility of 541
rabbit skin, dressing and dyeing of 110, 115
rabbit skin, dressing of 167
rat skins, hair-on processing of 177
sheep- and lambskins, dressing and dyeing of 111
soaking of 568

Gallic acid in *Acacia nilotica* (Bagaruwa) pods 167
Gelatin, manufacture of, from waste chrome leather 301
Gloss of leather, polymer impregnation effect on 111
Glue, manufacture of, from waste chrome leather 306
Glutamate dehydrogenase, immobilization of, on feather keratin membrane 116
Glutaraldehyde, tanning with aluminum and 382
Glycoproteins, metabolism of, in adjuvant arthritis, catechin effect on 437
Goatskin
abscess in Indian 330
bating of, with immobilized pancreatic enzymes 445
chamois garment leather from Indian 178
chrome crust, suede garment leather from 166
chrome-zirconium tanning of, for suede leather 501
fire-mark defect in 176
flint dried Himalayan, hair-on tanning of 438
glove leather from 445
nappa garment leather from 442
quality control of 166
rapid tanned E. I., aniline upper leather from 328
retanning of E. I., with aluminum chloride 440
sarcoptic mange in Indian 326
sun-dried, for musical drums, microscopy of 438
surface defects of, in Madras 118
tanning of E. I., with aluminum salts 230
wet blue reject, upper and colored lining leather from 169
wet E. I., suede garment leather from 113
wet-salted, nappa garment leather from 441

Graft polymerization of acrylic monomers on casein, for finishes 440

HANNIGAN, MARY V., Biography 533
HANSON, EARL L., Biography 55
HAUCK, RAYMOND A., Fred O'Flaherty Award to 431
Hazelnut oil in leather-treating compositions 562
Heat from solar energy, in drying of leather 436
Heat pump in hide drying 175
Heparin from mammalian intestines 116
Hexamethylene diisocyanate adducts with sodium bisulfite, as tanning materials 70
Hide defect, hyperpigmentation, in black sheepskins 440
Hides
availability and quality control of 171
cleaning of, apparatus for 561
curing of, modified salting process for, drying in 175
curing of, with neem oil compounds 113
degreasing of, with bacterial lipase 173
drying of, heat pump in 175
drying of, irreversibility of 541
from endangered species 176
enzyme effect on, in bating 383
liming of, polymethacrylates as colloids in 567
liming of, racemization of amino acids of collagen in 382
liming of, sulfideless process for 114
mechanical properties of, effects of adjuvant-induced arthritis on 500
preservation of, water absorbents in 192
quality control of 166
residual epidermis on, scanning electron microscopy of 286
stretching of, apparatus for 64
trimmings, proteins from, from slaughterhouses 172
washing of, alkali metal aluminosilicates in 67
waste, disposal of 174
wet processing of, model for 120
wet-salted, soak-free process for 446
Hydrocarbons, absorbents for, from leather fibers and rubber 539
Hydrolysis
of insulin, by alhagain 173
of skin collagen by anaerobic bacteria 110
Hydrothermal denaturation temperature of collagen, tanning effect on 444
Hyperpigmentation in black sheepskins 440

Insulin, hydrolysis of, by alhagain 173

International Leather Week—Paris, announcement of 325
Intestines
as feed 441
of mammals, collagen and heparin from 116
Iron tanning materials, determination of, by complex formation 503
Isophorone diisocyanate adducts with sodium bisulfite, as tanning materials . 70
IULTCS
announcement of XVIII Congress of 323
report on XVII Congress of 106

Jawasee
proteinase extraction from 68
proteinases of, unhairing by 172
JORDAN, EDMUND F., JR., Biography 366

Keratin membrane, enzyme immobilization on 116
KUCMAS, GEORGE, Biography 258

Lacquers from cellulose esters, for leather 327
Lambskins, bleaching of pickled 68
Land, pollution of, by tannery wastewater 169
Lard oil in leather-treating compositions 562
Lead acetate in sulfonyl chloride tanning 288
Leather
adhesion of, to rubber, fat effect on 286
aniline and semi-aniline, from buffalo hides 170
aniline buff calf 326
aniline upper, from rapid tanned E. I. goatskins 328
aluminum and iron determination in, by complex formation 503
antiseptics in, chromatography of 540
area of, machines for measuring 540
bag and upper, from rural tanned cow hides 439
buffalo calf nappa, chrome-formaldehyde combination tanning for ... 378
chamois garment, chrome retanning of 446
chamois garment, from Indian goatskins 178
chrome scrap, chrome recovery from 311
chrome scrap, gelatin manufacture from 301
chrome scrap, glue manufacture from 306
chrome upper, vulcanization of 442
composites with acrylic polymers, morphological and mechanical properties of 508
for cricket balls 442

crust, from sheepskins, for making tie and dye leather 502
dermatitis effect on quality of sheepskin 441
from elephant hides 117
evaluation of grain treatment of 485
fats in, review on 386
fibers, as thermal insulators for pipes 563
fibers, properties of, tanning effects on 288
full chrome aniline, from wet salted buffalo calfskins 443
full chrome grain garment, crosslinking agents in manufacture of 112
full chrome upper, from wet salted cow hides, soak-free process for ... 446
full grain aniline upper, from wet salted cow hides 113
garment, from E. I. sheepskin 437
glazable upper, from wet salted sheepskins 440
glove, from goatskins 445
gloving, clothing and special, book review on 474
gloss and surface structure of, polymer impregnation effect on 111
goat- and sheepskin, abscess effect on 330
goat- and sheepskin, sarcoptic mange effect on 326
hunting suede, from wet blue cow hides 168
Hurache uppers from bag-tanned 229
Hurache uppers, from wet salted cowhide stock rejects out of limed state 110
kavalai or water bucket, from buffalo or cow hides 446
light fastness of dyed, lubricant effect on 541
nappa and softy, alternative technology for 502
nappa garment, from cowhide 112
nappa garment, from E. I. sheepskins 377
nappa garment, from goatskins 442
nappa garment, from wet salted goatskins 441
nappa upholstery, from buffalo hides 441
needle-polishing, from wet-salted buffalo hides, by oil tanning 500
particles, leather substitutes from polymers and 562
polymerization of acrylic monomers in 332
properties of, tanning effect on 287
for school bags, rewetting of dry chrome splits for 500
semi-alum-aluminum upper, from E. I. goatskin 440
semichrome aniline upper, from E. I. buffalo calfskins 444
semichrome sheep nappa, by fringe tanning 500
semichrome upper, from E. I. kips 172
from sheepskins of Mecheri and Mandya breeds 168
shoe scientist looks at 391
shrunken grain, from rural tanned cow hides 438

shrunken grain, synthetic tanning materials in making 543
soft, aliphatic hydroxyl groups in manufacture of 231
softy and nappa, from cow hides 171
softy upper, for boots, from E. I. cow hides 445
suede, from chrome-zirconium-tanned goatskins 501
suede garment, from chrome crust goatskins 166
suede garment, from dog skins 167
suede garment, from wet E. I. goatskins 113
sulfonyl chloride-tanned, dyeing of 439
treatment of, with acrylic-castor oil copolymers 329
upper and colored lining, from wet blue reject goatskins 169
upper, country-tanned 230
upper, from dog skins 114
upper, manufacture of, book review on 165
upper, waterproofing of 118
wastes, absorbents and leather substitutes from synthetic and textile fibers and 539
waste, conversion to proteins 175
waste, review on 176
wet processing of, polymers as antifriction materials for 381
white upper, from buffalo or cow hides 438
wrinkle-free upper, from buffalo hides 378
zug grain cow upper 379
zug grain, for army and police boots 111
Leather industry
of Argentina 544
growth of, in the 1980's 448
quality control in, book on 559
surfactants in 385
Leather substitute
fiber-board products as 230
from leather particles and polymers 562
from melamine resins and textiles 566
from polymers and fibers 65
from polymers and rayon 563
from polymers and synthetic fibers 564
from waste leather, synthetic and textile fibers 539
Lecithin as fatliquor 386
Leucocyanidin in Acacia nilotica (Bagaruwa) pods 167
Light fastness of dyed leather, lubricant effect on 541
Lipase
from bacteria, in hide degreasing 173

bacterial, in sheepskin degreasing 228
Lubricants, light fastness of dyed leather in relation to 541
Lungs, cattle, proteins from, from slaughterhouses 172

Mammals, intestines of, collagen and heparin from 116
Manganese catalysts, for oxidation of sulfides in beamhouse wastewater ... 457
Mange
psoroptic, in buffalo calfskins 167
sarcoptic, in Indian goat- and sheepskins 326
Mecryl resin, finishing with, of vegetable-tanned sheepskins 380
Melamine resins, leather substitutes from textiles and 566
Membrane, keratin, enzyme immobilization on 116
Metabolism of collagen and glycoproteins in adjuvant arthritis, catechin effect on 437
Methane, production of, in wastewater anaerobic digestion, effects of 539
quebracho and wattle on 137
Methyl methacrylate, polymerization of, in leather 332
Methyl urea, tropocollagen aggregation in relation to 445
Microdensitometry, double beam, of finishes 232
Microorganisms
resorcinol oxidation by, to phenoxazones 379, 380
in soils, multiplication stimulation of, by tannery wastewater 377
Microscopy
phase contrast, of finishes 232
scanning electron, in leather research 180
scanning electron, of residual epidermis on hides 286
of sun-dried goatskins for musical drums 438
MILLIGAN, BRIAN, Biography 103
Millipore filters in insoluble matter determination in tanning materials ... 539
Mineral oil in leather-treating compositions 562
Molasses in hide liming 114
Molds, oxidation by, of catechol 444
Molecular structure
of collagen, shrinkage temperature in relation to 383
of dyes, color in relation to, review on 387
of dyes, spectra in relation to 386
Musical drums, sun-dried goatskins for, miscroscopy of 438
Myrobalans
retanning with 379
tanning with aluminum sulfate and 378

Naphthalenesulfonic acid, synthetic tanning materials from aminoplasts

and, for retanning of chrome leather 380
NAYUDAMMA, Y., celebrates 60th birthday 538
Neatsfoot oil in leather-treating compositions 562
Needles, leather for polishing of, from wet-salted buffalo hides, by oil tanning 500
Neem oil, hide curing with compounds from 113
Nitrification of tannery effluent 149
Nitrocellulose lacquers for leather finishes 539
Nitrogen oxides, reactions of, with volatile organic compounds in air 35
N-Nitrosodimethylamine from unhairing, air pollution by 476
Notes for contributors 2

Penetration of wattle, speed of 540
Penicillium islandicum, tannase from 177

Penicillium notatum, tannase from 177
Peptide groups, tannin fixation by 229
Peptides, bating enzyme effect on 541
PETERSON, STANLEY A., Biography 55
pH
  silica tanning rate in relation to 228
  sulfonyl chloride tanning in relation to 229
Phenoxazones, resorcinol oxidation to, by microorganisms 379, 380
Phospholipids, fatliquoring with 562
Pickling
  with acidified formaldehyde 166
  hexamethylenetetramine in, for chrome tanning 569
  polymers in 384
Pigments, pearlized, for finishing 543
Pigskins, skinning apparatus for 64
Pipes, thermal insulators for, leather fibers as 563
Piricularia oryzae, resorcinol oxidation by, to phenoxazones 380
Plants, chrome availability for, in soils 385
Pollution of land and water by tannery wastewater 169
Polyelectrolytes as scavengers in wastewater treatment 168
Polymerization of acrylic monomers in leather 332
Polymer morphology of acrylic polymer-leather composites 508
Polymers
  as antifriction materials in leather wet processing 381
  as coating materials 384
  leather impregnation with, gloss and surface structure in relation to ... 111
  leather substitutes from fibers and 65
  leather substitutes from leather particles and 562
  leather substitutes from rayon and 563
  leather substitutes from synthetic fibers and 564
  in wet processing 384
Polymethacrylates as colloids in hide liming 567
Polyolefin fibers, absorbents and leather substitutes from waste leather and textile fibers and 539
POOLE, BRUCE M., Biography 56
Press for leather 565
Printing machines, finishing on 543
Process simulation for beamhouse operations 120
Proteinase
  from bacteria and Jawasee, unhairing by 172
  in bating with simultaneous scudding 64

extracellular acid, production of, by Aspergillus fumigatus 327
extraction of, from Jawasee 68
unhairing with 565
Proteins
from beef lungs and hide trimmings from slaughterhouses 172
meal, from cattle brains from slaughterhouses 169
recovery of, from unhairing wastewater 7, 115
removal of, from beamhouse effluent 504
from waste leather 175
Protocatechuic acid in *Acacia nilotica* (Bagaruwa) pods 167
Pseudomonas, anaerobic, collagen hydrolysis by 110
Pseudomonas pseudomallei, biodegradability of dyes by 328
Psoroptic mange in buffalo calfskins 167
PVC, PVA blends, finishing with, of vegetable-tanned sheepskins 380
Pyrazolones, dyeing with, of leather 444
Pyridine in sulfonyl chloride tanning 288

Quality control
of goatskins 166
of hides 161, 171
in leather industry, book on 559
Quebracho, anaerobic digestion of wastewater in presence of 137

Racemization of amino acids of collagen in alkaline lime liquors 382
Rat skins, hair-on processing of 177
Rayon, leather substitutes from polymers and 563
Research, scanning electron microscopy in 180
Resorcinol, oxidation of, to phenoxazones, by microorganisms 379, 380
RETZSCH, CLINTON E., ASTM Award of Merit to 433
Rubber
absorbents from leather fibers and 539
adhesion of, to leather, fat effect on 286
chlorinated, finishing with 436
RUSSELL, JOHN M., Biography 469

Salts in sulfonyl chloride tanning 288
Sarcoptic mange in Indian goat- and sheepskins 326
SCHOLNICK, FRANK, Biography 104
School bags, leather for, rewetting of dry chrome splits for 500
Seudding, enzymatic bating simultaneously with 64
SENSKE, GERARD E., Biography 224

Sepia officinalis, suckers and tentacles of, collagen in 443
Sheepskin
abscess in Indian 330
bobble defect in 378
crust leather from, for making tie and dye leather 502
degreasing of, bacterial lipase in 228
degreasing of, enzymes in 544
dermatitis in, leather quality in relation to 441
fire-mark defect in 176
fringe tanning of, for semichrome nappa leather 500
hyperpigmentation in black 440
leather from, of Mecheri and Mandya breeds 168
Punjab wool, vegetable tanning of 114
sarcoptic mange in Indian 326
surface defects of, in Madras 118
tanning of E. I. 446
wet-salted, aluminum-chrome-zirconium tanning of 440
Shoes
fiber-board products in 230
scientist looks at leather 391
Shrinkage temperature of collagen, molecular structure in relation to 383
Silica, tanning with, pH effect on rate of 228
Slaughterhouse
blood meal from 174
cholesterol from cattle brains from 169
cholic acid and desoxycholic acid from 288
protein-rich meal from cattle brains from 169
proteins from beef lungs and hide trimmings from 172
SMITH, LYNTON R., Biography 321
Soaking
of furs 568
thioamides and thiols in 66
Sodium bisulfite adducts with isocyanates, as tanning materials 70
Sodium carbonate, chrome precipitation by, from wastewater 383, 542
Sodium chloride
Aspergillus growth and metabolism in presence of 326
in hide preservation, water absorbents and 192
Sodium hydroxide in unhairing 166
Sodium silicate, tanning with chrome and, for buffalo shoe suede 502
Sodium sulfide
recovery of, from unhairing wastewater 115
unhairing by painting of 171

Sodium sulfite in hide liming 114
Soils
bacteria in, multiplication stimulation of, by tannery wastewater 377
chrome in, availability of, for plants 385
Solanum torvum, catecholoxidases from fruit of 168
Solar energy, heat from, for drying of leather 436
Solvents, sulfonyl chloride tanning in relation to 229
Spectra of dyes, molecular structure effect on 386
Spermaceti in leather-treating compositions 562
Sporting goods, cricket balls, leather for 442
Staining of biological materials, review on 387
Starch, hydrolyzed, graft copolymers with acrylonitrile, as water absorbents for hide preservation 192
Stress analysis of tannery drums 246
Sulfides in beamhouse wastewater, manganese-catalyzed oxidation of 457
Sulfonamides, light fastness of dyed leather in relation to 541
Sulfonyl chlorides
in combination tanning 377
leather tanned with, dyeing of 439
tanning with 288
tanning with, collagen reactions in 330
tanning with, pH and drying temperature in relation to 229
tanning with, solvent effect on 229
tanning with, ultraviolet spectra in relation to 329
Super slurpers, acrylonitrile-starch graft copolymers, as absorbents for water in hide preservation 192
Surface structure of leather, polymer impregnation effect on 111
Surfactants
in dyeing of grain leather 63
in leather industry 385
SWEET, LYNETTE AC, Biography 224
Symposium
on nonleather uses of tanned and untanned collagen 290
on solid, liquid, and gaseous waste management 6
Synthetic fibers, leather substitutes from polymers and 564
Synthetic tanning materials
from aminoplasts and naphthalenesulfonic acid, for retanning of chrome leathers 380
aminoplasts as 562
in chrome fixation 504
in making shrunken grain leather 543
polyurethanes, in retanning 384

reactive, for aniline leather 232

Tallow in leather-treating compositions 562
Tannase
from Aspergillus species 111, 177
from penicillium species 177
Tanning
acrylic polymers in 567
with aluminum and glutaraldehyde 382
aluminum-chrome-zirconium, of wet salted sheepskins 440
with aluminum salts, of E. I. goatskins 230
with aluminum sulfate and myrobalans 378
with aluminum sulfate and wattle 436
with aluminum sulfate, of fox skins 117
chrome-zirconium, of E. I. goatskins 388
combination, sulfonyl chlorides in 377
drums, stress analysis of 246
of E. I. sheepskins 446
fringe, of sheepskins, for semichrome nappa leather 500
hair-on, of flint dried Himalayan goatskins 438
hydrothermal denaturation temperature of collagen in relation to 444
leather fiber properties in relation to 288
leather properties in relation to 287
mineral, simultaneously with fatliquoring 501
with oil, of wet-salted buffalo hides, for needle-polishing leather 500
pretreatment process 84
pretreatment, without chrome 503
reactions in, between tannins and peptide groups 229
re-, dyeing, fatliquoring and, by compact process 382
re-, fashion and ecological aspects of 176
re-, of bag-tanned leather, alum in 388
re-, of chrome leather with naphthalene-aminoplast synthetic tanning materials 380
re-, of E. I. goatskins with aluminum chloride 440
re-, polymers in 384
re-, polyurethanes in 384
re-, with myrobalans 379
with silica, pH effect on rate of 228
sodium silicate combination with chrome, for buffalo shoe suede 502
with sulfonyl chlorides 288
with sulfonyl chlorides, collagen reactions in 330
with sulfonyl chlorides, pH and drying temperature in relation to 229

with sulfonyl chlorides, solvent effect on 229
with sulfonyl chlorides, ultraviolet spectra in relation to 329
tannin/hide powder ratio in 231
vegetable, of Punjab wool sheepskins 114
with water-insoluble aluminosilicates 63
wattle penetration speed in 540
with zirconium salts, of goatskins, for suede leather 501
Tanning materials
from *Acacia nilotica* (Bagaruwa) pods 118, 167
from *Acacia nilotica* (Bagaruwa) pods for retanning chrome side leather . 168
aluminum and iron, determination of, by complex formation 503
chrome determination in, photometric 384
dicarbamoylsulfonates as 70
insoluble matter determination in, Millipore filters in 539
physical properties of vegetable extracts 230
Tannins
in *Acacia nilotica* (Bagaruwa) pods 167
in African and Indian Babul barks 500
distribution of, in various plant parts 441
fixation of, by peptide groups 229
ultraviolet spectra of 170
Tendons, mechanical properties of, effects of adjuvant-induced arthritis on 500
Terminalia chebula, tanning extracts from, physical properties of 230
Tetranitromethane, crosslinking by, of elastoidin 438
Textiles
absorbents and leather substitutes from waste leather and synthetic fibers and 539
leather substitutes from melamine resins and 566
Thioamides in soaking 66
2-Thiocyanomethylbenzothiazole, chromatography of, in leather 540
Thiols in soaking 66
Thermal insulators, leather fibers as, for pipes 563
Tolylene diisocyanate adducts with sodium bisulfite, as tanning materials . 70
TRAPP, JAMES, N., Biography 161
Triethylamine in sulfonyl chloride tanning 288
Triphenylmethane dyes, biodegradability of, by *Pseudomonas pseudomallei* .. 328
Tropocollagen, aggregation of, urea effect on 445
Trypsin, collagen changes by 541
Tyrosine, collagen changes by 541

Ultraviolet radiation
collagen fibers irradiated by, moisture adsorption by 437

crosslinking by, of coatings 93
oxidation of unhairing wastes by 7
Ultraviolet spectra
sulfonyl chloride tanning effect on 329
of tannins 170
Unhairing
by anaerobic bacteria 110
by bacterial and Jawasee proteinases 172
with dimethylamine and caustic soda 166
by enzymes, hair recovery in 541
N-nitrosodimethylamine from, air pollution by 476
with proteinases 565
of sheepskins, by enzymes 229
by sodium sulfide painting 171
wastewater from, characterization of 169
wastewater from, recovery of sulfide and proteins from 115
wastewater from, ultraviolet oxidation and recovery system for 7
Urea, tropocollagen aggregation in relation to 445
Urease, immobilization of, on feather keratin membrane 116
Urethane polymers
as coating materials 563
as coating materials, review on 379
in finishing 380
synthetic tanning materials, in retanning 384

Vegetable oil in leather-treating compositions 562
Volatile organic compound emissions, regulatory requirements and control options for 35
Vulcanization of chrome upper leather 442

WACHSMANN, HUBERT M., Biography 258
WAITE, PHILIP H. Obituary 536
Wastes
from beamhouse, disposal of 174
chrome-bearing offals, uses for 291
chrome leather, chrome recovery from 311
chrome leather, gelatin manufacture from 301
chrome leather, glue manufacture from 306
hide trimmings, proteins from, from slaughterhouses 172
leather, absorbents and leather substitutes from synthetic and textile fibers and 539
leather, conversion to proteins 175

leather, review on 176
management of, symposium on 6
Wastewater
bacteria in tannery effluent 175
from beamhouse, sulfides in 457
from beamhouse TNO process 381
from beamhouse using enzymes 117
management of, symposium on 6
soil bacteria multiplication stimulation by 377
tannery effluent, pollution of land and water by 169
from tanning and finishing of E. I. leather 387
unhairing effluent, characterization of 169
water pollution by tannery effluent 539
Wastewater treatment
anaerobic digestion, effects of quebracho and wattle on 137
chrome oxidation 286
chrome recovery, by precipitation with sodium carbonate 383, 542
clarification, alum in 24
fat and protein removal, from beamhouse effluent 504
feasibility of, of tannery effluent 443
incineration, of fluidized sludge 503
by loop reactor 381
nitrification and denitrification, of tannery effluent 149
oxidation ditch for 38
polyelectrolytes as scavengers in 168
protein and sulfide recovery, of unhairing effluents 115
recycling, of beamhouse effluent 206
settling and lime treatment, of effluent from tanning and finishing of E. I. leather 387
sulfide oxidation, manganese-catalyzed, of beamhouse effluent 457
of tannery effluents in India 118
of unhairing effluent, ultraviolet oxidation and recovery system for ... 7
Water
absorbents for, in hide preservation 192
adsorption of, by ultraviolet-irradiated collagen fibers 437
pollution of, by tannery wastewater 169, 539
Waterproofing
of leather 542
of upper leather 118
Wattle
anaerobic digestion of wastewater in presence of 137
penetration speed of, in tanning 540

tanning with aluminum sulfate and 436
Waxes in leather-treating compositions 562
WELLS, DOROTHY B., Obituary 425
Wood flour as absorbent in chrome tanning 567
Wool fat in leather-treating compositions 562

ZALEIKO, NICHOLAS S., Biography 56
Zirconium salts
tanning with chrome and, of E. I. goatskins 388
tanning with, of goatskins, for suede leather 501
Zirconium sulfate, tanning with aluminum, chrome and, of wet salted sheepskins 440
